IVCGSMT - 3 June 2026

Major Highlights

- International keynote and valedictory sessions
- Research Paper Presentation
- Track wise Best research paper award and Best paper presenter award

Aim

This international virtual conference serves as a platform to explore, develop, and apply ideas related to management and sustainability on a global scale. It aims to conceptualize, implement, instil, and integrate practical, experience-based insights with research-driven approaches, bringing together perspectives from both academia and industry professionals.

Publications

ISBN Conference proceeding with reputed publisher and selected research papers shall be published in reputed Scopus journal and ABDC journals in association with the university.

IVCGSMT - 3 June 2026

Purpose

- To understand innovative approaches and analyze research-oriented aspects across diverse business domains, while examining current practices, strategies, and sustainability measures.
- To empower learners and professionals to enhance their research skills and strengthen a robust research culture among academicians, scholars, and industry practitioners.
- To build capacity by promoting the dissemination of original, research-based knowledge through scholarly papers.

Objectives

- To build the ability to analyze and conceptualize modern business scenarios with a focus on sustainability in a dynamic and uncertain (VUCA) environment, while addressing challenges with strategic solutions across diverse domains.
- To actively engage in meaningful discussions on current issues spanning various business fields.

Who should attend ?

- Academicians, research scholars, students, business consultants; representatives of international relations, banking professional, financial service providers, operations management, marketing strategy formulation, and digital marketing; and representatives of corporate social responsibility.
- Top and middle level executives of corporate, SMEs, start-up enterprises, and public-sector undertaking companies engaged in business-to-consumers and business-to-business operations in products and services sectors.
- Government representatives working on regional and economic development, public policy areas, and industrial relations.
- Entrepreneurs, who want to learn and express new insights, share research contributions and discuss best practices.

IVCGSMT - 3 June 2026

Benefits

- Understand causes, effects, and debate on strategies to manage business despite disruptive innovations, challenges, and conflicts.
- Ways to explore new disruptions in industrial scenarios across developing economies
- A networking opportunity to meet international colleagues and professionals working on business and innovation related perspectives.
- Opportunities for collaborative research with experts in the field of innovation management.
